

Modifiers

Policy

Mass General Brigham Health Plan accepts industry standard modifiers to enable increased accuracy in recording patient encounters. A modifier provides the means by which a provider can report that a service rendered and articulated by a service code has been altered by one or more specific circumstances.

Mass General Brigham Health Plan accepts all standard CPT and HCPCS modifiers in accordance with the appropriate CPT or HCPCS procedure code(s). Certain modifiers, when submitted appropriately, will impact compensation. The absence of an appropriate modifier, or the use of an inappropriate modifier, may result in claim denial.

Reimbursement

Providers are reimbursed according to the plan's network provider reimbursement or contracted rates. Claims are subject to payment edits that are updated at regular intervals.

Covered services are defined by the member's benefit plan. The manner in which covered services are reimbursed is determined by the Mass General Brigham Health Plan Payment Policy and by the provider's agreement with Mass General Brigham Health Plan. Member liability amounts may include, but are not limited to, copayments, deductible, and/or co-insurance, and will be applied dependent upon the member's benefit plan.

Various services and procedures require referral and/or authorization. Referral and authorization requirements can be located [here](#).

Please reference procedure codes from the current CPT, HCPCS Level II, and ICD-10-CM manuals, as recommended by the American Medical Association (AMA), the Centers for Medicare & Medicaid Services (CMS), and the American Hospital Association. CMS and the AMA revise HIPAA medical codes on a pre-determined basis, including changes to CPT, HCPCS, and ICD-10 codes and definitions.

Please refer to the CMS or CPT guidelines for requisite modifier usage when reporting services. The

Provider Payment Guidelines

absence or presence of a modifier may result in differential claim payment or denial.

Mass General Brigham Health Plan reviews claims to determine eligibility for payment. Services considered incidental, mutually exclusive, integral to the primary service rendered, or part of a global allowance, are not eligible for separate reimbursement. Please refer to [Coding Provider Payment Guidelines](#) for more information.

All claims are subject to audit services and medical records may be requested from the provider.

Modifier Tables

The following tables are intended to provide guidance for the proper use of modifiers, and for potential reimbursement impact. Please refer to the AMA CPT and HCPCS manuals for specific guidelines on required and appropriate modifier use.

Billing tips:

- Before using the 26 or TC modifiers, check to see that the procedure code can accept these modifiers. An indicator of "1" in the PC (*Professional Component*)/ TC (*Technical Component*) field on MFSDB (*Medicare Physician Fee Schedule Database*) signifies that Modifiers 26 and TC are valid for the procedure code. Click [here](#) to inquire against the Medicare Physician Fee Schedule Data Base
- If the same provider is performing both the technical and professional component of a service,

This document is designed for informational purposes only. Claims payment is subject to member eligibility and benefits on the date of service, coordination of benefits, referral/authorization/notification and utilization management guidelines when applicable, adherence to plan policies and procedures, claims editing logic, and provider contractual agreement. In the event of a conflict between this payment guideline and the provider’s agreement, the terms and conditions of the provider’s agreement shall prevail. Payment policies are intended to assist providers in obtaining Mass General Brigham Health Plan’s payment information. Payment policy determines the rationale by which a submitted claim for service is processed and paid. Payment policy formulation takes into consideration a variety of factors including: the terms of the participating providers’ contract(s); scope of benefits included in a given member’s benefit plan; clinical rationale, industry-standard procedure code edits, and industry-standard coding conventions.

Mass General Brigham Health Plan includes Mass General Brigham Health Plan, Inc., and Mass General Brigham Health Plan Insurance Company.
