Overview
The purpose of this document is to describe the guidelines Mass General Brigham Health Plan utilizes to determine medical appropriateness of procedures considered reconstructive and cosmetic in nature. The treating specialist must request prior authorization for reconstructive and cosmetic procedures.

Coverage Guidelines
Mass General Brigham Health Plan generally provides coverage when the surgery or procedure is reconstructive in nature, i.e., needed to improve the functioning of a body part, treat an associated medical complication, or is otherwise medically necessary, even if the surgery or procedure may also improve or change the appearance of a portion of the body. While this policy addresses many common procedures, it does not address all specific procedures that may be considered solely cosmetic in nature, and therefore excluded from coverage. Mass General Brigham Health Plan excludes coverage of cosmetic surgery and procedures that are performed primarily to improve or enhance a person’s appearance as not medically necessary.

Mass General Brigham Health Plan covers medically necessary reconstructive surgery and procedures performed on structures of the body that are altered or damaged by congenital defects, developmental abnormalities, trauma, infection, tumors, or disease when there is a physical functional impairment or ongoing medical complication that is expected to be improved upon with the requested procedure. Mass General Brigham Health Plan will also consider reconstructive/restorative procedures of the face to correct severe disfigurement under the circumstances described below.

Mass General Brigham Health Plan covers medically necessary reconstructive procedures when the following are met:

1. The medical condition or complication and the functional impairment is well documented by supportive testing and clinical notes (photos may be required, and when required may need to be emailed or mailed for visual clarity and quality); and
   a. If the procedure is listed in the criteria below, the specific criteria must also be met; or
   b. If the procedure is not listed above or in the criteria below, the medical necessity will be reviewed on an individual basis.

2. The requested procedure can be reasonably expected to resolve the medical condition or complication and functional impairment.

Note: For some conditions, a planned staged procedure may be medically appropriate, but for most conditions only the initial reconstructive procedure will be authorized unless a significant functional impairment or ongoing medical complication remains, and medical review criteria are met.

Members must meet the general coverage criteria and the criteria for any specific procedure below:
Eyelid(s)
- Blepharoplasty/Upper Blepharoptosis Repair for visual field impairment
- Upper or Lower Blepharoplasty for Non-Visual Field issues
- Brow Ptosis Repair

Nose
- Rhinoplasty
- Septoplasty

Facial
- See Oral and Maxillofacial Surgery and Procedures Medical Policy
- See Gender Affirmation Medical policy for applicable procedures

Chest
- See *Breast Surgeries Medical Policy* for Breast Surgeries and tattooing an areola
- Pectus excavatum (Prior authorization not required)
- Pectus carinatum (Prior authorization not required)
- Poland syndrome

Abdomen
- Panniculectomy

Skin
- Skin Redundancy: Removal on arms, legs, and buttocks
- Dermabrasion
- Scar Revision
- Skin lesion Removal
- Congenital Pigmented Nevi with possible increased malignancy potential
- Skin Tag Removal
- Hemangioma Destruction
- Port Wine Stain Treatment by Laser
- Hair Removal

Appendages
- Supernumerary Digit Removal

Veins
- Varicose Vein Treatment

**Trauma to the Face**
Mass General Brigham Health Plan covers medically necessary restorative procedure for the face when all of the following are met:

1. The circumstances of the accidental trauma and the degree of injury are well documented by supportive testing and clinical notes. (Photos may be required, and when required, may need to be emailed or mailed for visual clarity and quality).
2. The procedure must be requested and performed within 18 months of the accidental injury; or
   a. For children who have not reached full maturity (i.e., age 16 or less), the medical record must document that a delay greater than 18 months for performing the initial restorative procedure was required in order for growth to be complete; or
   b. For any other delay greater than 18 months, the medical record must document that the postponement of the initial restorative procedure was required in order for optimal reconstruction, healing, and remodeling.
3. The requested procedure can be reasonably expected to have a successful outcome.
Note: Only the initial restorative procedure will be authorized, unless a significant functional impairment or ongoing medical complication remains, and medical review criteria for a reconstructive procedure are met.

Exclusions
See General Exclusions

Specific Criteria for Selected Reconstructed Procedures

Eyes
Blepharoplasty/Upper Blepharoptosis Repair for visual field impairment
Medical necessity for Blepharoplasty is determined through InterQual® criteria. To access the criteria, log in to Mass General Brigham Health Plan’s provider website at MassGeneralBrighamHealthPlan.org and click the InterQual® Criteria Lookup link under the Resources Menu.

Exclusions
See General Exclusions

Upper or Lower Blepharoplasty for Non-Visual Field issues
Medical necessity for upper or lower blepharoplasty for non-visual field issues is determined through InterQual® criteria. To access the criteria, log in to Mass General Brigham Health Plan’s provider website at MassGeneralBrighamHealthPlan.org and click the InterQual® Criteria Lookup link under the Resources Menu.

Exclusions
See General Exclusions

Brow Ptosis Repair
Medical necessity for brow ptosis repair is determined through InterQual® criteria. To access the criteria, log in to Mass General Brigham Health Plan’s provider website at MassGeneralBrighamHealthPlan.org and click the InterQual® Criteria Lookup link under the Resources Menu.

Ears
Otoplasty
Otoplasty is medically necessary for congenital absence of the ear (anotia) or severe (grade III) microtia. Otoplasty is considered cosmetic for all other indications.

Nose
Rhinoplasty
Medical necessity for rhinoplasty is determined through InterQual® criteria, which Mass General Brigham Health Plans has customized. For MassHealth members this criteria are based on the “MassHealth Guidelines for Medical Necessity Determination for Rhinoplasty.” To access the customized criteria, log in to Mass General Brigham Health Plan’s provider website at MassGeneralBrighamHealthPlan.org and click the InterQual® Criteria Lookup link under the Resources Menu. For MassHealth customized criteria, use “Rhinoplasty (MassHealth) (Custom) – MGB. For commercial customized criteria, use “Rhinoplasty (Commercial) (Custom) – MGB.

Exclusions
See General Exclusions

Septoplasty
Medical necessity for septoplasty is determined through InterQual® criteria. For MassHealth members this criteria are based on the “MassHealth Guidelines for Medical Necessity Determination for Septoplasty.” To access the customized criteria, log in to Mass General Brigham Health Plan’s provider website at MassGeneralBrighamHealthPlan.org and click the InterQual® Criteria Lookup link under the Resources Menu.
For MassHealth customized criteria, use “Septoplasty (MassHealth) (Custom) – MGB.

**Exclusions**

See [General Exclusions](#).

**Chest**

**Pectus Excavatum (Prior authorization not required)**

Medical necessity for pectus excavatum repair is determined through InterQual® criteria. To access the criteria, log in to Mass General Brigham Health Plan’s provider website at MassGeneralBrighamHealthPlan.org and click the InterQual® Criteria Lookup link under the Resources Menu.

**Pectus Carinatum (Prior authorization not required)**

Surgical repair or bracing is generally not medically necessary, as the condition is asymptomatic in the vast majority of people. Mass General Brigham Health Plan covers medically necessary surgical repair or bracing when:

1. The member has a severe chest wall deformity causing (or at risk for causing) cardiovascular or respiratory compromise.
2. The medical record clearly documents the degree of deformity (via Haller index or other) and its direct relationship to the symptoms including supportive cardiopulmonary testing such as pulmonary function testing; and;
3. The member has completed bone growth, generally when greater than or equal to 15 years of age.

**Exclusions**

1. Male pectoral augmentation for the purpose of enhancing the chest region unrelated to the surgical repair of the chest wall as covered in this policy or the Breast Surgeries policy.
2. See [General Exclusions](#).

**Poland Syndrome**

See Breast Surgeries Clinical Coverage Criteria for breast reconstruction for members with Poland Syndrome.

Mass General Brigham Health Plan covers medically necessary surgical repair of associated chest wall deformity when one of the following are met:

1. The member has a chest wall deformity causing functional impairment such as diminished exercise tolerance or respiratory compromise; or
2. The medical record documents chest wall defects in which the chest viscera are exposed and susceptible.

**Exclusions**

1. Costal aplasia or hypoplasia without physical functional impairment.

**Abdomen**

**Panniculectomy**

Medical necessity for panniculectomy of the abdomen is determined through InterQual® criteria. To access the criteria, log in to Mass General Brigham Health Plan’s provider website at MassGeneralBrighamHealthPlan.org and click the InterQual® Criteria Lookup link under the Resources Menu. Photo documentation is required.

**Exclusions**

1. Abdominoplasty.
2. See [General Exclusions](#).

**Labiaplasty**
Labiaplasty may be authorized for a diagnosis of labial hypertrophy in members at least 18 years of age when there is documentation of:

1. Functional deficit that interferes with activities of daily living;
2. Recurrent rashes/ulcers in the affected areas that have not responded to conservative treatment (e.g. topical medications);
3. Dyspareunia.

Labiaplasty for gender affirming surgery – see Gender Affirmation Procedures Medical Policy.

Exclusions

1. Labiaplasty performed solely for cosmetic purposes.

Skin

Skin Redundancy: removal on arms, legs, and buttocks

See panniculectomy above for removal of redundant skin of abdomen. See Breast Surgeries Medical Policy for breast reduction criteria.

Mass General Brigham Health Plan covers medically necessary removal of redundant skin when criteria 1 and 2 are met:

1. The redundant skin is the result of weight loss of at least 75 pounds that has been stable for at least 6 months, and if the weight loss occurs as a result of bariatric surgery, the member must be at least 12 months post bariatric surgery.
2. There is written and photographic supporting documentation that the occlusive redundant skin directly causes one of the following:
   a. Symptomatic intertriginous ulcerations or macerations that are unresponsive to good personal hygiene and well documented optimal physician-supervised local treatment and that continually persist for a period of at least six months despite this care and treatment. Required lateral and frontal photos must demonstrate a significantly redundant and occlusive skin fold, and additional photos must document the presence of intertriginous skin ulceration and maceration; or
   b. Recurrent bacterial skin infections (at least 2 in a 12-month period) directly related to the redundant skin, which required systemic antibiotics. Required lateral and frontal photos must demonstrate a significantly redundant and occlusive skin folds.

Note: Liposuction is often an integral part the surgical removal of excessive skin this is not separately reimbursed.

Exclusions

See General Exclusions

Dermabrasion

Mass General Brigham Health Plan covers medically necessary dermabrasion:

1. To remove superficial basal cell carcinomas and pre-cancerous actinic keratoses when conventional methods of treatment (cryotherapy, curettage, excision, and 5-FU) are impractical due to the number and distribution of the lesions, or
2. For restoration after previous medically necessary surgery.

Exclusions

1. Dermabrasion or other cosmetic dermatologic procedures performed for the removal of acne, acne scars, wrinkles, or uneven pigmentation is not considered medically necessary and is not a covered benefit.
2. See General Exclusions
**Scar Revision (including Keloid Revision)**
Medical necessity for scar revision is determined through InterQual® criteria. For fractional laser ablation for burns and traumatic scars, use the customize InterQual Scar Revision criteria. Photo documentation may be required. To access the criteria, log in to Mass General Brigham Health Plan’s provider website at MassGeneralBrighamHealthPlan.org and click the InterQual® Criteria Lookup link under the Resources Menu.

**Skin Lesion Removal**
Mass General Brigham Health Plan covers medically necessary skin lesion removal in the following situations:
1. Any lesion clinically suspicious for malignancy;
2. Any presumably benign lesion that grows or enlarges, begins to bleed, or ulcerate or that is exposed to frequent irritation; or
3. Nevi when the rationale is to reduce the risk of malignant transformation.

Notes: Photo documentation may be required.
The following *does not require prior authorization*:
- Biopsy, skin lesion biopsy, skin lesion, each additional
- Excisions and simple closure, benign lesions
- Excision, malignant lesions
- Injection into skin
- Destruction of benign lesion(s) other than skin tags or cutaneous vascular proliferative lesions

**Exclusions**
See [General Exclusions](#)

**Skin Tag Removal**
Note: Skin tag removal *does not require prior authorization*.
Mass General Brigham Health Plan covers medically necessary removal of a skin tag. The medical record should clearly document the size, location, and characteristics of the skin tag and one or more of the following conditions is present:
1. Chronic, recurrent, or persistent bleeding, intense itching, and/or pain.
2. Physical evidence of inflammation, e.g.; purulence (containing pus), oozing, edema, erythema (redness).
3. There is a clinical uncertainty as to the likely diagnosis, particularly where malignancy (cancer) is a realistic consideration based on the appearance or growth.
4. The skin tag is in an anatomical region subject to recurrent physical trauma and that such trauma has, in fact, occurred.
5. The skin tag obstructs an orifice or clinically restricts vision.
6. A preauricular skin tag containing both skin and cartilage

**Hemangioma Destruction**
Mass General Brigham Health Plan covers medically necessary hemangioma destruction when the medical record clearly documents the size, location, and characteristics of the hemangioma and one of the following:
1. The hemangioma is on the face, neck or ears; or
2. The hemangioma is causing a functional impairment of vital structures (e.g., impaired vision or astigmatism due to eyelid or periorbital hemangiomas; auditory impairment and secondary speech delay due to hemangiomas in the ear); or
3. The hemangioma has recurrent bleeding, ulceration, or infection; or
4. The hemangioma is pedunculated; or
5. The hemangioma is associated with Kasabach-Merritt syndrome.
Exclusions
1. Treatment (i.e., laser) of congenital capillary hemangiomas that are naturally resolving and in the absence of interference with a vital structure (eye, airway) or with documented recurrent infection or significant bleeding requiring medical intervention.
2. See General Exclusions

Port Wine Stain Treatment by Laser
Mass General Brigham Health Plan covers medically necessary port wine stain treatment by laser when the medical record clearly documents the size, location, and characteristics of the port wine stain, and one of the following:
1. The port wine stain is on the face and neck; or
2. The port wine stain has recurrent bleeding, ulceration, or infection.

Note: photo documentation may be required.

Exclusions
See General Exclusions

Hair Removal
Mass General Brigham Health Plan covers hair removal (with laser or electrolysis) by a treating licensed provider or board-certified dermatologist, when the member meets one of the following criteria:
1. Treatment for recurrent hair follicle infections, recurrent infected cysts, or when it is being done to prevent recurrence or infections after surgical treatment of pilonidal sinus disease.
2. It is being done as part of treatment for gender incongruence (dysphoria). Please see the Mass General Brigham Health Plan’s Gender Affirming Procedures Policy for further detail and exclusions.

Appendages
Supernumerary Digit Removal
Mass General Brigham Health Plan covers medically necessary removal of supernumerary digits for members up to the age of 19 years.

Exclusions
1. The member is over 19 years of age.
2. See General Exclusions

Veins
Varicose Vein Ligation and Stripping, Ablation, Ambulatory Phlebectomy, Sclerotherapy
Medical necessity for varicose vein treatment is determined through InterQual® criteria which Mass General Brigham Health Plan has customized. For MassHealth members this criteria are based on the “MassHealth Guidelines for Medical Necessity Determination for Treatment of Varicose Veins of The Lower Extremities.” Photo documentation may be required. To access the customized criteria, log in to Mass General Brigham Health Plan’s provider website at MassGeneralBrighamHealthPlan.org and click the InterQual® Criteria Lookup link under the Resources Menu. For MassHealth customized criteria, use “Treatment of Varicose Veins (MassHealth) (Custom) – MGB. For Commercial customized criteria, use “Ablation, Endovenous, Varicose Vein – (Commercial) (Custom) – MGB.

Exclusions
See General Exclusions

General Exclusions
Mass General Brigham Health Plan does not provide coverage for reconstructive procedures for conditions that do not meet the criteria noted above, including but not limited to:

1. **Coverage of cosmetic surgery and procedures and non-surgical cosmetic dermatology procedures that are solely to enhance a patient’s appearance in the absence of any signs or symptoms of functional abnormalities; and/or associated medical complication is considered cosmetic and is not a covered benefit, unless specifically noted otherwise in this coverage criteria.**

2. **Any procedure where the primary purpose is to enhance aesthetics, including but not limited to:**
   a. Hair transplantation
   b. Liposuction
   c. Facial implants
   d. Calf implants
   e. Skin tightening
   f. Chemical peels
   g. Laser skin resurfacing

3. Hair removal aside from those conditions listed under hair removal above.

Note: For procedures involving Gender Reassignment please refer to the Gender Affirming Procedures policy.

4. Thyroid cartilage shaving surgeries or procedures performed primarily for psychological or emotional reasons.

5. Liposuction for lipedema

**Medicare Variation**

Mass General Brigham Health Plan uses guidance from the Centers for Medicare and Medicaid Services (CMS) for coverage determinations for its Medicare Advantage plan members. National Coverage Determinations (NCDs), Local Coverage Determinations (LCDs), Local Coverage Articles (LCAs) and documentation included in the Medicare manuals are the basis for coverage determinations. When there is no guidance from CMS for the requested service, Mass General Brigham Health Plan’s medical policies are used for coverage determinations.

At the time of Mass General Brigham Health Plan’s most recent policy review, Medicare includes the following:

- **NCD: Treatment of Actinic Keratosis (250.4).**
- **LCD: Varicose Veins of the Lower Extremity, Treatment of (L33575).**
- **LCD: Blepharoplasty, Blepharoptosis and Brow Lift (L34528).**
- **Local Coverage Article: Billing and Coding: Blepharoplasty, Blepharoptosis and Brow Lift (A56908).**
- **Local Coverage Article: Blepharoplasty - Medical Policy Article (A52837).**
- **CMS Medicare Benefit Policy Manual Chapter 16- General Exclusions from Coverage.**

**Codes**

The following codes are included below for informational purposes only; inclusion of a code does not constitute or imply coverage or payment.
The following list of codes applies to commercial and MassHealth plans only.
