

# Frequently asked questions about transitioning to Optum Rx

Have questions about switching to Optum Rx? We've got answers.

## Who is Optum Rx?

Optum Rx will be your plan's pharmacy benefits manager. Our commitment is to help you get the most out of your prescription medication benefit. We provide safe, easy and cost-effective ways for you to get the medication you need.

### Network retail pharmacies

- After **Jan. 1, 2024**, use the **Optum Rx app** or log in to your account at **optumrx.com** to view a list of network pharmacies. You can also access **optumrx.com** through your secure member portal at **Member.MassGeneralBrighamHealthPlan.org**.
- Show your member ID card at any network retail pharmacy.
- Call the number on your member ID card.

### Will I receive a new member ID card?

Yes, you'll receive new member ID cards for you and any covered family members before the Jan. 1, 2024 effective date.

### Will there be any changes to how the medication I'm currently taking will be covered?

MassHealth updates their formulary throughout the year as new medications become available. Members will continue to have access to needed care and medications, but it is always a good idea to check the MassHealth Drug List for any changes.

### If I have approvals for medications I am currently taking, will those approvals remain in place?

If you currently have approvals in place for medications you are taking, those current approvals will remain in place and there is nothing you need to do.

### What is a formulary?

A formulary is a continually updated list of prescription drugs that **uses the most clinically effective and cost-effective generic and brand drugs**.

## Specialty pharmacy

Optum® Specialty Pharmacy can be your specialty pharmacy. Optum Specialty Pharmacy does more than just fill prescriptions. Our pharmacy provides the resources and personal support you need when you need it.

### What are specialty medications?

Specialty medications are for conditions such as cancer, multiple sclerosis and rheumatoid arthritis. They can be injectable, taken by mouth or inhaled. They also:

- May require ongoing clinical oversight and additional education for best management.
- Have unique storage or shipping requirements.
- May not be available at retail pharmacies.

### To learn more about specialty services
