However, the health care professional may be required to comply with certain procedures, including obtaining prior authorization for certain services, following a pre-approved treatment plan, or procedures for making referrals.

Utilization Review Program

The Utilization Review standards Mass General Brigham Health Plan uses were created to assure our members consistently receive high quality, appropriate medical care. To determine coverage, specific criteria are used to make Utilization Review decisions. These criteria are developed by physicians and meet the standards of national accreditation organizations. As new treatments and technologies become available, we update our Utilization Review standards annually.

To make utilization decisions the health plan conducts prospective, concurrent, and retrospective reviews of the health care services our members use.

Initial Determination (Prospective Review or Prior Authorization)

Determines in advance if a procedure or treatment either you or your doctor is requesting is both medically appropriate and medically necessary.

Concurrent Review

During the course of treatment, such as hospitalization, concurrent review monitors the progress of treatment and determines for how long it will be deemed medically necessary.

Retrospective Review

After care has been provided, we review treatment outcomes to ensure that the health care services provided to you met certain quality standards.

Care Management

When members have a severe or chronic illness or condition, they may qualify for Care Management. Care managers work one-on-one with members and their providers to find the most appropriate and cost-effective ways to manage a condition. Together, a treatment plan that best meets the member's needs is developed with the goal of promoting patient education, self-care, and providing access to the right kinds of health care services and options.

To learn more about Utilization Review or Care Management at Mass General Brigham Health Plan, please refer to your Member Handbook or call Customer Service.
