Overview

Vijoice is indicated for the treatment of adult and pediatric patients 2 years of age and older with severe manifestations of PIK3CA-Related Overgrowth Spectrum (PROS) who require systemic therapy.

Coverage Guidelines

Authorization may be reviewed for members new to the plan who are currently receiving treatment with requested medication excluding when the product is obtained as samples or via manufacturer's patient assistance programs.

OR

Authorization may be granted for members when all the following criteria are met, and documentation is provided:

1. Member has a diagnosis of PIK3CA-Related Overgrowth Spectrum (PROS)
2. Member is at least 2 years of age
3. The member has severe manifestations of disease and requires systemic therapy
4. Documented test confirming presence of PIK3CA mutation

Continuation of Therapy

Reauthorization will be granted for a covered indication and physician attestation that there is no evidence of unacceptable toxicity or disease progression while on the current regimen.

Limitations

1. Initial approvals will be granted for 6 months
2. Reauthorizations will be granted for 12 months.

Review History

09/21/2022 – Reviewed and created for July P&T. Effective 11/01/2022
