

Cystic Fibrosis Transmembrane Conductance Regulator (CFTR) Potentiators:
Kalydeco (ivacaftor)
Orkambi (lumacaftor/ivacaftor)
Symdeko (tezacaftor/ivacaftor)
Trikafta (elexacaftor/tezacaftor/ivacaftor)
Effective 10/01/2021

Overview

CF is caused by genetic mutations in the CFTR protein. The CFTR protein is present in the respiratory epithelium and plays an important role in the regulation of airway surface liquid. Genetic mutations in the protein result in abnormal airway secretions, chronic endobronchial infection, and progressive airway obstruction. The CFTR potentiators treat the underlying cause of CF by targeting the defective CFTR protein to help facilitate increased chloride transport.

Coverage Guidelines:

Kalydeco (ivacaftor)

Authorization may be granted for members who are currently receiving treatment with Kalydeco for an FDA approved indication excluding when the product is obtained as samples or via manufacturer's patient assistance programs.

OR

Authorization may be granted for treatment of cystic fibrosis when all of the following criteria are met:

1. Documentation of genetic testing to detect a mutation in the *CFTR* gene.
2. The member has one of the following mutations in the CFTR gene: A455E, A1067T, D110E, D110H, D579G, D1152H, D1270N, E56K, E193K, E831X, F1052V, F1074L, G178R, G551D, G551S, G1069R, G1244E, G1349D, K1060T, L206W, P67L, R74W, R117C, R117H, R347H, R352Q, R1070W, R1070W, S549N, S549R, S945L, S977F, S1251N, S1255P, 711+3A→G, 2789+5G→A, 3272-26A→G, 3849+10kbC→T.
3. The member is \geq 6 months of age
4. Kalydeco will not be used in combination with Symdeko, Orkambi, or Trikafta

Orkambi (lumacaftor/ivacaftor)

Authorization may be granted for members who are currently receiving treatment with Orkambi for an FDA approved indication excluding when the product is obtained as samples or via manufacturer’s patient assistance programs.

OR

Authorization may be granted for treatment of cystic fibrosis when all of the following criteria are met:

1. Documentation of genetic testing to detect a mutation in the *CFTR* gene.
2. The member is positive for the *F508del* mutation on both alleles of the *CFTR* gene.
3. The member is 2 years of age or older.
4. Orkambi will not be used in combination with Kalydeco, Symdeko, or Trikafta.

Symdeko (tezacaftor/ivacaftor)

Authorization may be granted for members who are currently receiving treatment with Symdeko for an FDA approved indication excluding when the product is obtained as samples or via manufacturer’s patient assistance programs.

OR

Authorization may be granted for treatment of cystic fibrosis when all of the following criteria are met:

1. Documentation of genetic testing to detect a mutation in the *CFTR* gene.
2. The member has one of the following mutations in the *CFTR* gene: A455E, A1067T, D110E, D110H, D579G, D1152H, D1270N, E56K, E193K, E831X, F1052V, F1074L, K1060T, L206W, P67L, R74W, R117C, R347H, R352Q, R1070W, S945L, S977F, 711+3A→G, 2789+5G→A, 3272-26A→G, 3849+10kbC→T, or the member is homozygous for the *F508del* mutation.
3. The member ≥ 6 years of age or older
4. Symdeko will not be used in combination with Kalydeco, Orkambi, or Trikafta

Trikafta (elaxacaftor/tezacaftor/ivacaftor)

Authorization may be granted for members who are currently receiving treatment with Trikafta for an FDA approved indication excluding when the product is obtained as samples or via manufacturer’s patient assistance programs.

OR

Authorization may be granted for treatment of cystic fibrosis when all of the following criteria are met:

1. Documentation of genetic testing to detect a mutation in the *CFTR* gene.
2. The member is positive for the *F508del* mutation on one or more alleles of the *CFTR* gene.
3. The member ≥ 6 years of age or older
4. Trikafta will not be used in combination with Kalydeco, Symdeko, or Orkambi.

Continuation of Therapy

All members (including new members) requesting authorization for continuation of therapy must meet all initial authorization criteria.

Limitations

1. Initial approvals will be granted for 6 months
2. Reauthorizations will be granted for 12 months
3. The following quantity limits apply:

Kalydeco 150mg tablets	56 tablets per 28 days
Kalydeco 25mg, 50mg, or 75mg packets	56 packets per 28 days
Orkambi 200-125mg tablets	112 tablets per 28 days
Orkambi 150-188mg granules	56 packets per 28 days
Symdeko 50-75mg tablets	56 tablets per 28 days

Symdeko 100-150mg tablets	56 tablets per 28 days
Trikafta 100-50-75mg tablets	84 tablets per 28 days

Review History

05/20/2020 – Created and Reviewed P&T Mtg; Merged Orkambi, Symdeko, Trikafta and Kalydeco into one program. Effective 7/1/20.

05/19/2021 – Updated and Reviewed May P&T Mtg; Separated out Comm/Exch vs. MH UPPL; Added duration of approval to Limitations.

07/21/2021 – Updated and Reviewed July P&T; removed previous failure or inadequate response to Orkambi, Symdeko and Kalydeco for the drug Trikafta. Age requirement for Trikafta updated to ≥ 6 years old. Effective 10/01/2021.
