### Overview

Entyvio (vedolizumab) intravenous (IV) injection is an integrin receptor antagonist indicated in adults for the treatment of:

- Moderately to severely active ulcerative colitis (UC)
- Moderately to severely active Crohn's disease (CD)

### Coverage Guidelines

Authorization may be granted for members new to the plan within the past 90 days who are currently receiving treatment with the requested medication, excluding when the product is obtained as samples or via manufacturer's patient assistance program

### OR

Authorization may be granted if the member meets all the following diagnosis-specific criteria:

#### **Moderately to severely active Ulcerative Colitis (UC)**

1. Diagnosis of moderately to severely active ulcerative colitis (UC)
2. Member meets ONE of the following:
  - a. Member has had trial and failure, intolerance, or contraindication to ONE of the following conventional therapies:
    - i. 6-mercaptopurine
    - ii. Aminosalicylate (e.g., mesalamine, olsalazine, sulfasalazine)
    - iii. Azathioprine
    - iv. Corticosteroids (e.g., prednisone)
  - b. Disease severity warrants a systemic biologic as first-line therapy

#### **Moderately to severely active Crohn's Disease (CD)**

1. Diagnosis of moderately to severely active Crohn's Disease (CD)
2. Member meets ONE of the following:

- a. Member has had trial and failure, intolerance, or contraindication to ONE of the following conventional therapies:
  - i. 6-mercaptopurine
  - ii. Azathioprine
  - iii. Corticosteroids (e.g., prednisone)
  - iv. Methotrexate
- b. Disease severity warrants systemic biologic as first-line therapy

### **Continuation of Therapy**

Requests for reauthorization will be approved when the following criteria are met:

- 1. Documentation is submitted supporting improvement in member's condition as evidenced by low disease activity or improvement in signs and symptoms of the condition

### **Limitations**

Initial approvals and reauthorizations will be granted for 12 months.

### **Review History**

02/23/15 – Reviewed

02/22/16 – Reviewed in P&T Meeting

02/27/17 – Reviewed and revised (adopted ST)

02/26/18 – Reviewed and revised

02/20/19 – Reviewed and revised in P&T Meeting

10/31/2020 – Reviewed; Updated criteria to have preferred agent for Comm/Exch strategy.

12/13/2023 – Reviewed and Updated for Dec P&T; Removed “must meet all initial criteria” for reauthorizations. Effective 1/1/2024

4/10/2024 – Reviewed and Updated for April P&T; Added new agent Entyvio SC to criteria. Added examples of disease progression. Removed Appendix. Added preferred agents. Effective 6/1/2024

09/11/2024 – Reviewed and updated for September P&T. Created separate policies for Entyvio IV and SC formulations. Removed biologic step through requirements for IV. Updated verbiage for Crohn's disease to specify the condition is moderately to severely active. Updated policy to indicate that Entyvio IV is restricted to the medical benefit. Effective 10/1/2024.

10/09/2024 – Reviewed and updated at October P&T. Updated reauthorization criteria to require documentation supporting improvement in member’s condition. Effective 1/1/2025.

05/14/2025 – Reviewed and updated at May P&T. Updated criteria for Crohn's disease and ulcerative colitis to remove disease characteristic requirement and allow for approval if disease severity warrants systemic biologic as first-line therapy. Effective 7/1/2025.
