Complete HMO HSA 4000 Enhanced FlexRxSM

For Individuals and Small Group Employers

This plan is a Health Savings Account (HSA) compatible high deductible health plan (HDHP). An HSA is a tax exempt fund that you and/or your employer can establish to pay for medical expenses associated with a qualified HDHP or you can use to save for your future health needs. By choosing an HSA-compatible plan, you are able to set up and contribute to an HSA and use the funds to pay for qualified medical expenses without federal tax liability or penalty. Check with your employer to find out whether they have an administrator to manage HSAs for their employees. Or contact our preferred HSA administrator, Benefit Strategies, at 603-232-8037 to learn how you may establish and fund an HSA. Once you set up an HSA, you should contact your HSA administrator to find out how to get the most from your account.

This health plan meets Minimum Creditable Coverage standards and will satisfy the individual mandate that you have health insurance. Please see the last page for additional information.

DEDUCTIBLE AND OUT-OF-POCKET MAXIMUM

Deductible per benefit period	Medical/Dental/Vision/Behavioral Health/Prescription Drug (Combined): \$4,000 Individual /\$8,000 Family

Out-of-Pocket Maximum per benefit period	Medical/Dental/Vision/Behavioral Health/Prescription Drug (Combined): \$8,000 Individual /\$16,000 Family

The Deductible, Coinsurance and Copayments for Medical, Dental, Vision, Behavioral Health, and Prescription Drugs apply to the annual Out-of-Pocket Maximum. This Schedule of Benefits and the Member Handbook comprise the Evidence of Coverage for members covered on this health plan.

Benefit Period

If you have non-group coverage, your benefit period resets on January 1. If you are enrolled through employer sponsored group coverage, your benefit period resets on your employer's anniversary date.

Copayments, Coinsurance, or Deductibles Required for Certain Services

Before coverage begins for certain services, you pay a deductible each benefit period. Your plan deductible is an amount you pay for certain services each year before Mass General Brigham Health Plan starts to pay for those certain covered services.

Your Health Savings Account (HSA) Compatible plan uses an Aggregate Deductible and Embedded Out-of-Pocket Maximum.

If you have individual coverage, you only need to satisfy the individual deductible and out-of-pocket maximum amounts. Family amounts do not apply to you. If you have family coverage, the individual deductible does not apply. Your entire family deductible must be met before benefits are payable for anyone in the family (unless otherwise noted). With family coverage, the family out-of-pocket maximum is satisfied by combining the deductibles, coinsurance, and copayment amounts paid by covered family members. A covered member will not exceed the Individual out-of-pocket maximum before the plan starts to pay 100% for covered services.

As a reminder, under HSA-compatible plans, all covered services except covered preventive services apply toward satisfaction of the deductible.

Your Primary Care Provider (PCP)

Your PCP arranges your health care and is the first person you call when you need medical care. Be sure to check with your PCP to find out office hours and whether urgent care is offered.

Mass General Brigham Health Plan requires the designation of a PCP. You have the right to designate a PCP who participates in our network and who is available to accept you or your family members. For children, you may designate a pediatrician as the PCP.

For information on how to select a PCP, or a list of the most up-to date provider information, or a list of participating health care professionals who specialize in obstetrics or gynecology, visit [MassGeneralBrighamHealthPlan.org](https://www.massgeneralbrigham.org) or call Customer Service.

Preventive Care Services

Mass General Brigham Health Plan covers eligible preventive services for adults, women (including pregnant women) and children, which includes coverage for annual physical exams, immunizations, well child visits and annual gynecological exams. For a complete list of eligible preventive care services, please visit [MassGeneralBrighamHealthPlan.org](https://www.massgeneralbrigham.org) or call Customer Service.

Primary Care Provider (PCP) and Obstetrical Rights

You do not need a referral from Mass General Brigham Health Plan or from any other person (including a PCP) in order to obtain access to obstetrical or gynecological care from a health care professional in our network who specializes in obstetrics or gynecology. However, the health care professional may be required to comply with certain procedures, including obtaining prior authorization for certain services, following a pre-approved treatment plan.

Urgent Care

If you need urgent care, call your PCP to arrange where you will receive treatment. Examples of conditions requiring urgent care include, but are not limited to, fever, sore throat or an earache.

Emergency Care

In an emergency, go to the nearest emergency facility, or call 911. Please refer to this Schedule of Benefits for your cost sharing amount. All follow-up care must be arranged by your PCP.

Referrals

Mass General Brigham Health Plan requires referral for specialist services provided by in-network Providers, except the following: Gynecologist or Obstetrician for routine, preventive or urgent care; Family Planning services; Outpatient and Diversionary Behavioral Health Services; Physical Therapy; Occupational Therapy; Speech Therapy; Routine Eye exam; and Emergency Services.

Utilization Review Program

The Utilization Review standards Mass General Brigham Health Plan uses were created to assure our members consistently receive high quality, appropriate medical care. To determine coverage, specific criteria are used to make Utilization Review decisions. These criteria are developed by physicians and meet the standards of national accreditation organizations. As new treatments and technologies become available, we update our Utilization Review standards annually.

To make utilization decisions the health plan conducts prospective, concurrent, and retrospective reviews of the health care services our members use.

Initial Determination (Prospective Review or Prior Authorization)

Determines in advance if a procedure or treatment either you or your doctor is requesting is both medically appropriate and medically necessary.

Concurrent Review

During the course of treatment, such as hospitalization, concurrent review monitors the progress of treatment and determines for how long it will be deemed medically necessary.

Retrospective Review

After care has been provided, we review treatment outcomes to ensure that the health care services provided to you met certain quality standards.

Care Management

When members have a severe or chronic illness or condition, they may qualify for Care Management. Care managers work one-on-one with members and their providers to find the most appropriate and cost-effective ways to manage a condition. Together, a treatment plan that best meets the member's needs is developed with the goal of promoting patient education, self-care, and providing access to the right kinds of health care services and options.

To learn more about Utilization Review or Care Management at Mass General Brigham Health Plan, please refer to your Member Handbook or call Customer Service.
