### **Benefit Period**

If you have non-group coverage, your benefit period resets on January 1. If you are enrolled through employer sponsored group coverage, your benefit period resets on your employer's anniversary date.

### **Copayments, Coinsurance, or Deductibles Required for Certain Services**

Before coverage begins for certain services, you pay a deductible each benefit period. Your Plan deductible is an amount you pay for certain services each benefit period. For some services, after the deductible is satisfied, members may be required to pay a copayment and/or coinsurance before coverage begins.

All members are responsible for the individual deductible per benefit period. Family member's deductible payments contribute toward the family deductible per benefit period. The family deductible can be satisfied by combining the deductibles paid for by covered family members. Each family member's contribution will not exceed the amount set for an individual deductible.

All medical, dental, behavioral health, and prescription drug amounts paid apply toward the out-of-pocket maximum. Once the individual out-of-pocket maximum is satisfied, these services are covered for the member in full through the remainder of the benefit period. The family out-of-pocket maximum is satisfied by combining the copayments, coinsurance and deductible amounts paid by covered family members. Once the family out-of-pocket maximum is satisfied, these services are covered for all family members in full through the remainder of the benefit period.

### **Your Primary Care Provider (PCP)**

Your PCP arranges your health care and is the first person you call when you need medical care. Be sure to check with your PCP to find out office hours and whether urgent care is offered.

Mass General Brigham Health Plan requires the designation of a PCP. You have the right to designate a PCP who participates in our network and who is available to accept you or your family members. For children, you may designate a pediatrician as the PCP.

For information on how to select a PCP, or a list of the most up-to date provider information, or a list of participating health care professionals who specialize in obstetrics or gynecology, visit [MassGeneralBrighamHealthPlan.org](http://MassGeneralBrighamHealthPlan.org) or call Customer Service.

### **Preventive Care Services**

Mass General Brigham Health Plan covers eligible preventive services for adults, women (including pregnant women) and children, which includes coverage for annual physical exams, immunizations, well child visits and annual gynecological exams. For a complete list of eligible preventive care services, please visit [MassGeneralBrighamHealthPlan.org](http://MassGeneralBrighamHealthPlan.org) or call Customer Service.

### **Primary Care Provider (PCP) and Obstetrical Rights**

You do not need a referral from Mass General Brigham Health Plan or from any other person (including a PCP) in order to obtain access to obstetrical or gynecological care from a health care professional in our network who specializes in obstetrics or gynecology. However, the health care professional may be required to comply with certain procedures, including obtaining prior authorization for certain services, following a pre-approved treatment plan.

### **Urgent Care**

If you need urgent care, call your PCP to arrange where you will receive treatment. Examples of conditions requiring urgent care include, but are not limited to, fever, sore throat or an earache.

### **Emergency Care**

In an emergency, go to the nearest emergency facility, or call 911. Please refer to this Schedule of Benefits for your cost sharing amount. All follow-up care must be arranged by your PCP.

### **Referrals**

Mass General Brigham Health Plan requires referral for specialist services provided by in-network Providers, except the following: Gynecologist or Obstetrician for routine, preventive or urgent care; Family Planning services; Outpatient and Diversionary Behavioral Health Services; Physical Therapy; Occupational Therapy; Speech Therapy; Routine Eye exam; and Emergency Services.

## **Utilization Review Program**

The Utilization Review standards Mass General Brigham Health Plan uses were created to assure our members consistently receive high quality, appropriate medical care. To determine coverage, specific criteria are used to make Utilization Review decisions. These criteria are developed by physicians and meet the standards of national accreditation organizations. As new treatments and technologies become available, we update our Utilization Review standards annually.

To make utilization decisions the health plan conducts prospective, concurrent, and retrospective reviews of the health care services our members use.

### ***Initial Determination (Prospective Review or Prior Authorization)***

Determines in advance if a procedure or treatment either you or your doctor is requesting is both medically appropriate and medically necessary.

### ***Concurrent Review***

During the course of treatment, such as hospitalization, concurrent review monitors the progress of treatment and determines for how long it will be deemed medically necessary.

### ***Retrospective Review***

After care has been provided, we review treatment outcomes to ensure that the health care services provided to you met certain quality standards.

## **Care Management**

When members have a severe or chronic illness or condition, they may qualify for Care Management. Care managers work one-on-one with members and their providers to find the most appropriate and cost-effective ways to manage a condition. Together, a treatment plan that best meets the member's needs is developed with the goal of promoting patient education, self-care, and providing access to the right kinds of health care services and options.

To learn more about Utilization Review or Care Management at Mass General Brigham Health Plan, please refer to your Member Handbook or call Customer Service.

## **Benefit Exclusions**
