AlliesSM Choice HMO Plans for Intermediary Small Group

Effective November 1, 2022

Allies is designed to make getting care easier, more convenient, less costly, and less confusing

- Premium savings compared to our full network plans
- Members get local, community-based primary and specialty care from providers affiliated with Newton-Wellesley Hospital, Salem Hospital, or South Shore Hospital. All three are Tier 1 (lower cost) hospitals
- When referred, members have access to Mass General Brigham academic medical centers and specialty hospitals. Tier 2 (higher) cost sharing for certain services will apply at Mass General Hospital, Brigham and Women's Hospital, and Mass Eye and Ear
- Members also have access to Mass General Brigham specialists (from Mass General Brigham academic medical centers and specialty hospitals) right in their own community
- Health navigators and an Allies transition experience specialist help to coordinate it all and simplify getting access to care
- Members can get certain specialist appointments faster (within three business days from a PCP's referral) in Dermatology, Orthopedics, Cardiology, and Gastroenterology
- No cost-sharing for all virtual visits. Virtual first primary care options are available

IMPORTANT NOTICE: This plan includes a limited tiered provider network called Allies Choice HMO and provides access to a network that is smaller than AllWays Health Partners' full commercial HMO provider network. Members have access to network benefits only from the providers in the Allies Choice HMO network and pay different levels of copayments, coinsurance, and/or deductibles depending on the tier of the provider delivering a covered service or supply. This plan may make changes to a provider's benefit tier annually on January 1. Please consult the provider directory or visit the provider search tool at allwayshealthpartners.org to determine which providers are included in the Allies Choice HMO network and the tier of those providers.

About the Allies Choice HMO plans and network

This plan divides the limited tiered hospital network into higher and lower cost tiers: Tier 1 (lower cost) and Tier 2 (higher cost). In addition, the tiering is limited to these services: inpatient medical services, outpatient diagnostic imaging and X-ray (including ultrasound), outpatient high-tech radiology (CT Scans, MRIs, etc.), outpatient surgery, outpatient short-term rehabilitation (cardiac, physical, occupational, and speech therapy).

All hospitals in our Allies Choice HMO network must meet high-quality standards and are measured by a set of quality benchmarks from publicly available resources like Leapfrog and Hospital Compare. To determine a hospital's tier, we used statewide cost data from the Center for Health Information and Analysis, an agency of the Commonwealth of Massachusetts. Based on this data, we identified cost-efficient hospitals by hospital type and placed these hospitals in Tier 1 (lower cost).

Tier 1, lower cost: Lower cost sharing applies to the following hospitals, including their affiliated and freestanding facilities: Newton-Wellesley Hospital, Salem Hospital, South Shore Hospital, McLean Hospital, Brigham and Women's Faulkner Hospital, Martha's Vineyard Hospital, Nantucket Cottage Hospital, North Shore Medical Center, and Spaulding Rehabilitation Network.

Tier 2, higher cost: Higher cost sharing applies only to the following hospitals and their affiliated facilities: Brigham and Women's Hospital, Massachusetts Eye and Ear Infirmary, and Massachusetts General Hospital. Please note that the following facilities affiliated with Tier 2 hospitals have Tier 1 lower cost sharing:

- Brigham and Women's/Mass General Health Care – Foxborough
- Mass General/North Shore Center for Outpatient Care
- Mass General Waltham
