Complete HMO Plans for Non-Group Intermediaries

Effective January 1, 2024

Great Access and Value

- Behavioral health benefits include access to Lyra Health’s full range of personalized care options, tools, resources, and support. This is in addition to Optum’s behavioral health network
- Care Complement plans support our members by making it easier and more cost effective to adhere to their treatment plans. It’s been nationally recognized for the common-sense approach to waiving cost share for certain services that can contribute to lowering costs. It removes financial barriers to care and introduces alternative methods for managing pain and chronic conditions which encourages healthy behaviors and helps mitigate future complications.
- An enhanced prescription drug benefit that includes a broad list of preventive medications covered before an HSA plan’s deductible
- Our fitness reimbursement provides up to \$150 for individual coverage or up to \$300 for family coverage per calendar year and includes virtual subscriptions
- On most plans, lower cost sharing for outpatient surgeries at an ambulatory surgical center or high-tech radiology services (e.g., MRI, CT, PET scan, and nuclear cardiac imaging) at a diagnostic imaging center. Members pay less for care received at these non-hospital based facilities than hospital-based and their affiliated facilities
