

Empower your clients with savings and support programs

Our competitive premiums could help provide savings to small group employers

Give your clients peace of mind with comprehensive coverage and plans designed with input from experts across the Mass General Brigham healthcare system.

Your clients can access valuable programs like:

Care Complement benefits waiving cost-sharing for certain services, such as chiropractic care and acupuncture, to provide access to affordable care options for pain management and chronic conditions. Available in all plans with Care Complement in the name.

Mental health support including Lyra Health, with fast and easy access to coaching, therapists, and a self-guided care resource center, in addition to the Optum network of providers.

Comprehensive women's health portfolio with resources for every stage of life, including pregnancy, postpartum and loss support, menopause, or pelvic health.

Rx Savings Solutions to help reduce prescription drug costs for members by offering alternative, lower-cost options.

Enhanced preventive drug benefit for members enrolled in an HSA plan includes an expanded list of preventive medications not subject to the deductible and available for a copay and/or coinsurance.

We partner with you to support your clients. Meet their needs with comprehensive coverage from Mass General Brigham Health Plan.

Contact your Sales or Account Executive to discuss which plans can help your clients save the most.
